Key points

1. Over the last 7 weeks, Tuesday was the cheapest day to buy U91 in Perth and Wednesday was the dearest, saving 12.8 c/L or $7.68 on a 60-litre tank.
2. At the Perth terminal, wholesale unleaded averaged 191.3 c/L after falling 4.8 c/L, while wholesale diesel fell 6 c/L to average 236.5 c/L.
3. Beckenham recorded the lowest suburb average for U91 at 187.1 c/L across 2 stations, followed by Kwinana Beach at 191.9 c/L across 5 stations.
4. Since 1 July 2026, Perth retail averages have increased by 32.4 c/L for U91 and 73.2 c/L for diesel.

What this means for drivers

We saw Perth retail bowsers ease as wholesale prices fell 4.8 c/L for unleaded and 6 c/L for diesel, though the day of the week made little difference if you buy diesel with only a 0.5 c/L spread over the last 7 weeks. You could save on U91 by filling up on Tuesday, which averaged 12.8 c/L cheaper than Wednesday across those 7 weeks. As an estimate rather than a guarantee, the forecast issued on 23 November 2026 suggested Perth U91 was rising toward an average of 196.6 c/L on 30 November 2026.

Cents per litre, with GST. Each common date counts once. Retail is the mean of the saved daily capital averages, not the station-day-weighted headline mean. TGP uses the same dates and carries the last published value for at most six subsequent calendar days. Retail prices can already include carried station prices. Means and spreads are rounded separately. The gross spread is not profit or a causal explanation. Retail carry limit: 30 days. Unmatched days are excluded; the common-day count is not a station or sales coverage percentage.

The listed count is the inventory used at build time, not a historical census of every operating station. One station selling two fuels on one day contributes two station–fuel–days. Fuel-specific counts must not be added to obtain a distinct station total. Calendar days describe the date window, not the number of new observations. A dash means the saved edition does not supply that count.
Carried retail price counts and excluded raw report counts were not retained; their shares are unavailable.

The number of stations selling each fuel and litres sold are not recorded, so fuel-market and sales coverage percentages are unavailable.
